

# SAFETY DATA SHEET

## 1. Identification

Product identifier	ORANGE MANGO FL WONF NAT WITH STEVIA		
Other means of identification			
Product code	CA-1041F		
Recommended use	Use in accordance with suppli	er's recommenda	tions.
Recommended restrictions	No other uses are advised.		
Manufacturer/Importer/Supplier/Dis Manufacturer	tributor information		
Company name Address	Capella Flavors, Inc. 1315 Hot Springs Way, Suite 1 Vista, CA 92081 United States	112	
Telephone	Office: Fax:	760 650-0200 n/a	
Website E-mail	www.capellaflavors.com customerservice@capellaflavc	ors.com	
Emergency phone number	CHEMTREC INTERNATIONAL	800-424-9300 703-741-5970	
2. Hazard(s) identification			
Physical hazards	Flammable liquids		Category 3
Health hazards	Skin corrosion/irritation		Category 2
	Serious eye damage/eye irrita	tion	Category 2A
	Sensitization, skin		Category 1
	Aspiration hazard		Category 1
Environmental hazards	Hazardous to the aquatic envi hazard	ronment, acute	Category 3
	Hazardous to the aquatic envi long-term hazard	ronment,	Category 3
OSHA defined hazards	Not classified.		
Label elements			
		<u>}</u>	
Signal word	Danger		
Hazard statement		action. Causes ser	llowed and enters airways. Causes skin irritation. rious eye irritation. Harmful to aquatic life. Harmful
Precautionary statement			
Prevention	Keep away from heat/sparks/open flames/hot surfaces No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Wash thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves/eye protection/face protection.		
Response	Take off immediately all contar cautiously with water for sever Continue rinsing. If skin irritation	minated clothing. al minutes. Remo on or rash occurs: ttention. Take off	octor. Do NOT induce vomiting. If on skin (or hair): Rinse skin with water/shower. If in eyes: Rinse we contact lenses, if present and easy to do. Get medical advice/attention. If eye irritation contaminated clothing and wash it before reuse.

In case of fire: Use appropriate media to extinguish.

Storage Disposal	Store in a well-ventilated place. Keep cool. Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations.	
Hazard(s) not otherwise classified (HNOC)	Static accumulating flammable liquid can become electrostatically charged even in bonded and grounded equipment. Sparks may ignite liquid and vapor. May cause flash fire or explosion.	
Supplemental information	3% of the mixture consists of component(s) of unknown acute oral toxicity. 3% of the mixture consists of component(s) of unknown acute dermal toxicity. 3% of the mixture consists of component(s) of unknown acute inhalation toxicity. 3% of the mixture consists of component(s) of unknown acute inhalation toxicity. 3% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 3% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.	
3. Composition/information on ingredients		

### **Mixtures**

Chemical name	Common name and synonyms	CAS number	%
ETHYL ALCOHOL 190 PROOF CANE IP NON GMO	ETHYLALCOHOL	64-17-5	40 - < 50
TRADE SECRET*		Proprietary*	10 - < 20
PROPYLENE GLYCOL NOM NFI		57-55-6	5 - < 10
Other components below reportable le	vels		30 - < 40

Other components below reportable levels

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

### 4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Ingestion	Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.
Most important symptoms/effects, acute and delayed	Aspiration may cause pulmonary edema and pneumonitis. Headache. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Coughing. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.
General information	Take off all contaminated clothing immediately. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.
5. Fire-fighting measures	
Suitable extinguishing media	Water fog. Alcohol resistant foam. Carbon dioxide (CO2). Dry chemical powder, carbon dioxide, sand or earth may be used for small fires only.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	Vapors may form explosive mixtures with air. Vapors may travel considerable distance to a source of ignition and flash back. This product is a poor conductor of electricity and can become electrostatically charged. If sufficient charge is accumulated, ignition of flammable mixtures can occur. To reduce potential for static discharge, use proper bonding and grounding procedures. This liquid may accumulate static electricity when filling properly grounded containers. Static electricity accumulation may be significantly increased by the presence of small quantities of water or other contaminants. Material will float and may ignite on surface of water. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	Flammable liquid and vapor.

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	ignition sources (no smoking, flares, sparks, protective equipment and clothing during clea damaged containers or spilled material unles closed spaces before entering them. Use app contamination. Transfer by mechanical mean	ns such as vacuum truck to a salvage tank or other al. Local authorities should be advised if significant
Methods and materials for containment and cleaning up	Eliminate all ignition sources (no smoking, fla combustibles (wood, paper, oil, etc.) away fro	ares, sparks, or flames in immediate area). Keep om spilled material. Take precautionary measures ing tools. Prevent product from entering drains.
	possible. Use a non-combustible material like	is without risk. Dike the spilled material, where this is e vermiculite, sand or earth to soak up the product Following product recovery, flush area with water.
	•	r non-combustible material and transfer to containers aterial (e.g. cloth, fleece). Clean surface thoroughly to
	Never return spills to original containers for re	e-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	environmental releases. Prevent further leaka	propriate managerial or supervisory personnel of all age or spillage if safe to do so. Avoid discharge into e appropriate containment to avoid environmental
7. Handling and storage		
Precautions for safe handling	material from direct sunlight. When using do ventilation. Minimize fire risks from flammable dust and static accumulating liquids) or dang operations that can promote accumulation of filtering, pumping at high flow rates, splash fil filling, tank cleaning, sampling, gauging, switt precautionary measures against static discha must be grounded. Use non-sparking tools al mist/vapors. Avoid contact with eyes, skin, ar appropriate personal protective equipment. V to the environment. Observe good industrial l	arges. All equipment used when handling the product nd explosion-proof equipment. Avoid breathing nd clothing. Avoid prolonged exposure. Wear Vash hands thoroughly after handling. Avoid release hygiene practices.
		ding and grounding, refer to the Canadian Electrical
	2003, "Protection Against Ignitions Arising ou	can Petroleum Institute (API) Recommended Practice It of Static, Lightning, and Stray Currents" or National ommended Practice on Static Electricity" or National onal Electrical Code".
Conditions for safe storage, including any incompatibilities	build-up by using common bonding and grou spark promoters. Ground/bond container and remove static electricity. Store in a cool, dry p	ts and open flame. Prevent electrostatic charge nding techniques. Eliminate sources of ignition. Avoid d equipment. These alone may be insufficient to place out of direct sunlight. Store in tightly closed sep in an area equipped with sprinklers. Store away of the SDS).
8. Exposure controls/persona	al protection	
Occupational exposure limits		
	ne only constituents of the product which have nts have no known exposure limits.	a PEL, TLV or other recommended exposure limit.
	Air Contaminants (29 CFR 1910.1000)	
Components	Туре	Value

Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	41.34 hPa estimated
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	685 °F (362.78 °C) estimated
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Flammability class	Flammable IC estimated
Oxidizing properties	Not oxidizing.
Refractive index	1.3641 - 1.3941
Specific gravity	0.93 - 0.96

# 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

# 11. Toxicological information

### Information on likely routes of exposure

internation on intery realed of expe	
Inhalation	Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation. May cause an allergic skin reaction.
Eye contact	Causes serious eye irritation.
Ingestion	Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia.
Symptoms related to the physical, chemical and toxicological characteristics	Aspiration may cause pulmonary edema and pneumonitis. Headache. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Coughing. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.
Information on toxicological effects	
Acute toxicity	May be fatal if swallowed and enters airways.
Skin corrosion/irritation	Causes skin irritation.
Serious eye damage/eye irritation	Causes serious eye irritation.
Respiratory or skin sensitization	
Respiratory sensitization	Not a respiratory sensitizer.
Skin sensitization	May cause an allergic skin reaction.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity	Not classifiable as to carcinogenicity to humans.
IARC Monographs. Overall Eva Not listed.	luation of Carcinogenicity

OSHA Specifically Regulated S	Substances (29 CFR 1910.1001-1052)		
Not regulated.

	Describle reproductive bazard		
Reproductive toxicity Specific target organ toxicity -	Possible reproductive hazard. Not classified.		
single exposure			
Specific target organ toxicity - repeated exposure	Not classified.		
Aspiration hazard	May be fatal if swallowed and enters airways.		
Chronic effects	Prolonged inhalation may be harmful.		
12. Ecological information			
Ecotoxicity	Harmful to aquatic life with long lasting effects.		
Persistence and degradability	No data is available on the degradability of any ingredients in the mixture.		
Bioaccumulative potential			
Partition coefficient n-octanol			
ETHYL ALCOHOL 190 PROOF PROPYLENE GLYCOL	F CANE IP NON GMO -0.31 NOM NFI -0.92		
Mobility in soil	No data available.		
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation		
	potential, endocrine disruption, global warming potential) are expected from this component.		
13. Disposal considerations			
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Incinerate the material under controlled conditions in an approved incinerator. Do not incinerate sealed containers. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. If discarded, this product is considered a RCRA ignitable waste, D001. Dispose of contents/container in accordance with local/regional/national/international regulations.	e	
Local disposal regulations	Dispose in accordance with all applicable regulations.		
Hazardous waste code	D001: Waste Flammable material with a flash point <140 F The waste code should be assigned in discussion between the user, the producer and the waste disposal company.	Э	
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).		
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.	is
